

4.4.2 Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc.

College campus expanse in an area of two acres and posses built up area of 2327sq.mtr. It is richly endowed with lush greenery and eco friendly ambience. It is situated nearer to railway station and main bus terminus of Shimoga city. The institution has satisfactory infrastructure possessing 40 classrooms, 10 well-equipped laboratories, one good auditorium, one seminar hall and one UGC resource center with adequate number of computers in library. As a policy Institution provides best academic environment for imparting and imbibing knowledge. In support of this, the management focuses on the infrastructural development policies through plan of action every year. The implementation for development is done on need and demand basis. The institution adopts the policies and procedures as per UGC for infrastructural development of science laboratories and library. The office and accounts establishment are governed by the policies of department of Higher Education, GOK. The management also equally has evolved the policies to support the infrastructure of the campus.

The main block houses the office of the principal, the college administration office, the staff room, record room, strong room, examination office, the department of physical education, the physics chemistry, mathematics, botany, zoology, electronics, BCA, and class room for all departments. The whole campus is under the surveillance of CCTV. All the departments are facilitated with high band width BSNL internet. The department of Botany and Zoology have exclusive museum with the collection of rare specimens. The department of botany is annexed with Green house and medicinal botanical garden. All the departments are well-furnished with appropriate appliances; in addition departmental libraries in science block are well equipped.

As a policy institution has set up stationary named “Lekhana”, Xerox center, general cafeteria for staff & students and separate canteen for girls. Institution has a pride of hosting premier distance education study centre-IGNOU and state university study centre- KSOU, which facilitates students for enrollment to add on course, certificate course, and diploma course for UG and PG as continuous education system. Exclusive space has been provided for NCC, NSS, IQAC, and health centre and placement cell for efficient functioning.

The departments of mathematics, placement cell, IQAC office are equipped with UPS and inverters for 24 hours power supply. In the campus generator has been installed to support power system for 24 hours to all the science departments, office establishment. In each floor to ensure safe drinking water to students and few departments RO technology filtering systems are installed. As a water conservation policy in the campus one bore well, two open wells are under rain water recharging, which are maintained for adequate supply of water to green-house and botanical garden. For storage and supply of municipal water 10,000 liters capacity of sump is built. Four overhead tanks (Syntax make) with capacity of 1000 liters are installed which ensures 24 hours water supply to all science departments and rest-rooms. The institution has supported the sports activity by creating multi gym funded by UGC grants and under management financial assistance.

During the academic year 2017-18 new program B.Com was introduced and new campus with built up area 1000 sq. mts consisting of 3 well equipped classrooms, one staff room and a coordinator chamber are added to the existing assets of the Institution. In addition for the same year a high tech mathematics lab was established with installation of 40 high end of computers coupled with internet facilities and audio-visual system.
