FEEDBACK ANALYSIS

Course Evaluation

Curriculum Development is defined as the process of selecting, organizing, executing, and evaluating learning experiences on the basis of the needs, abilities and interests of the learners and the nature of the society/ community. Renewing and updating of the Curriculum is the essential process of any university academic system. Curriculum development should cater student needs and should lead to improvement of student learning. To meet the need and requirement of the society and in order to enhance the quality and standards of education, updating and restructuring of the curriculum must be process. The students and teachers are the most important stakeholders of Higher Education systems. Hence periodical feedback of these stakeholders will be taken to design/update a curriculum

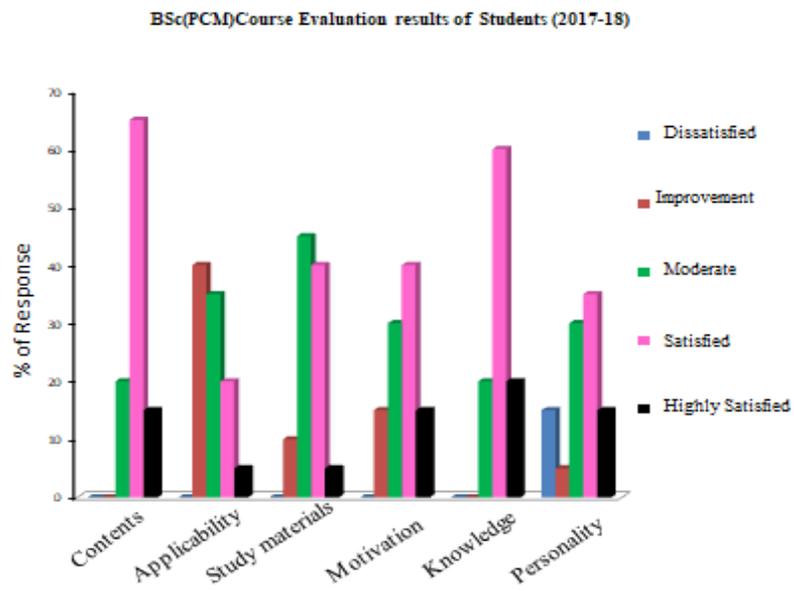

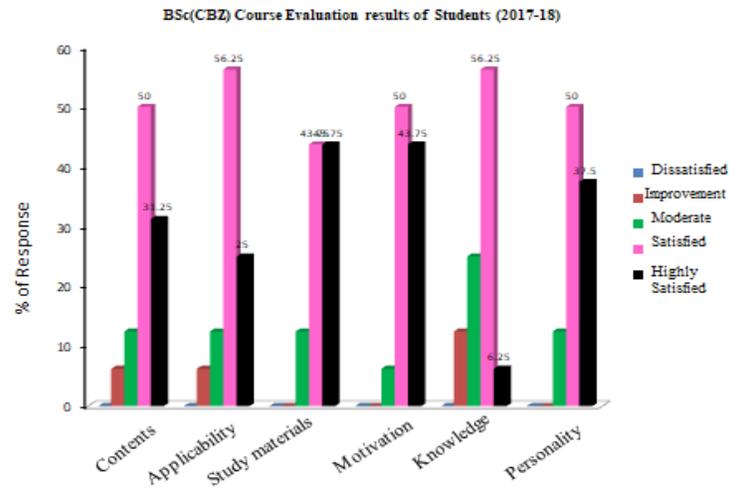

Feedback from stakeholders of education system on curriculum is essential to develop a competent syllabus. Different Stakeholders feedback on programmers offered is collected by the IQAC, analyzed systematically and reports are informed to concerned BOS members/teachers of the college. Many faculty members are in various Boards of studies. Departments are conducting curricular review meetings to assess the feedback from different stakeholders and resolutions will be communicated to respective Board of studies of University to evolve a need based curriculum. They have organized syllabus up gradation workshops to evolve an effective curriculum at university level.

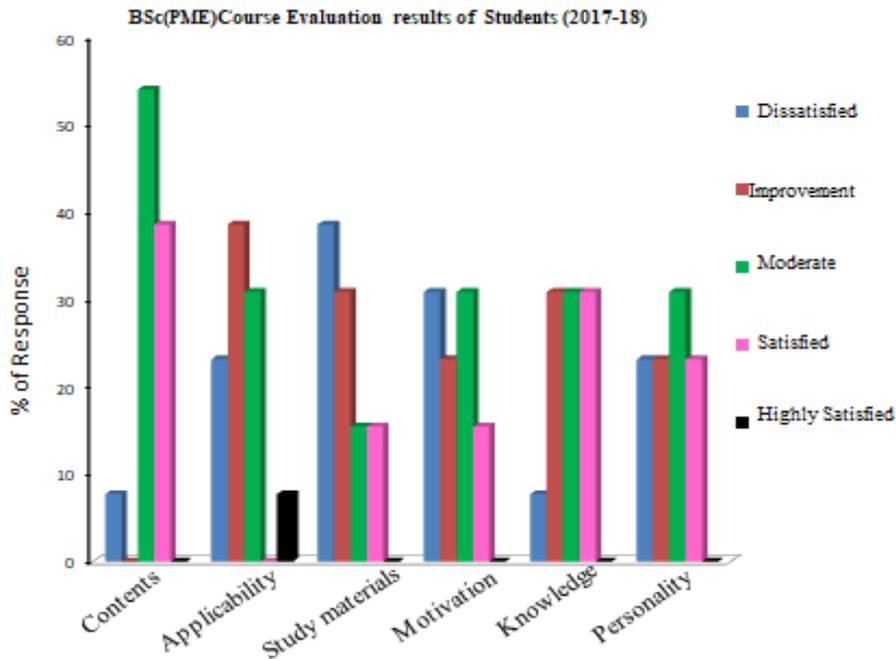

STUDENTS FEEDBACK ON CURRICULUM

ANALYSIS –Year 2017-18

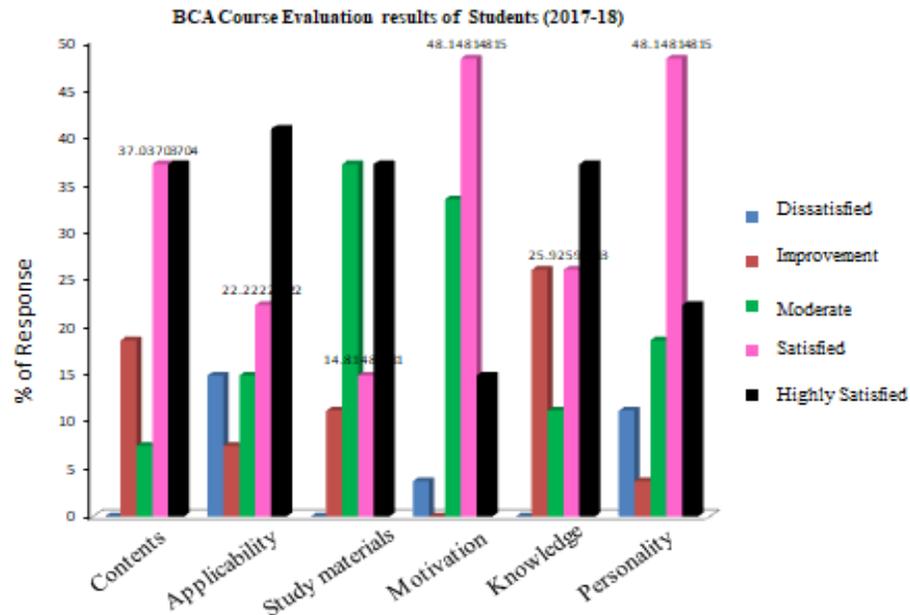

Final year students were asked to give feedback on syllabus content, applicability, learning resources provided etc.

- Around \cong 50% students in III BSc (CBZ)Class are satisfied with the course content and its applicability in general to real life, science and technology and also to career. They are also satisfied with availability of study materials, motivation they derived and overall personality development. Whereas \cong 40% students satisfied with knowledge base they could develop from it.
- \cong 60% students in III BSc PCM combination Class are satisfied with course content and knowledge they developed from the syllabus. Whereas \cong 40% students satisfied with motivation they got and the supply of learning resources they could develop from it. its applicability in general to real life, science and technology and also to career. They also satisfied with availability of study materials and motivation and overall personality development.
- \cong 50% students in III BSc(PME) Class are satisfied with course content . \cong 25% students are satisfied with its applicability in general to real life, science and technology and also to career. They are not satisfied with availability of study materials, motivation and overall personality development. Whereas \cong 30% students satisfied with knowledge base they could develop from it.

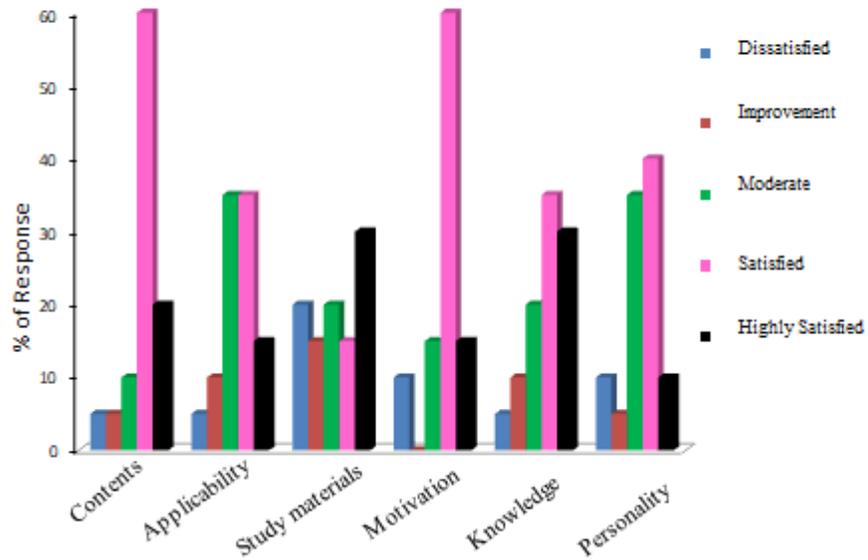

In BCA around 50% students in III BCA Class are satisfied with the motivation they derived from course and its contribution towards their personality development. Around 40% students are highly satisfied with its content, its applicability in general to real life, science and technology and also to career. They are also highly satisfied with availability of study materials.

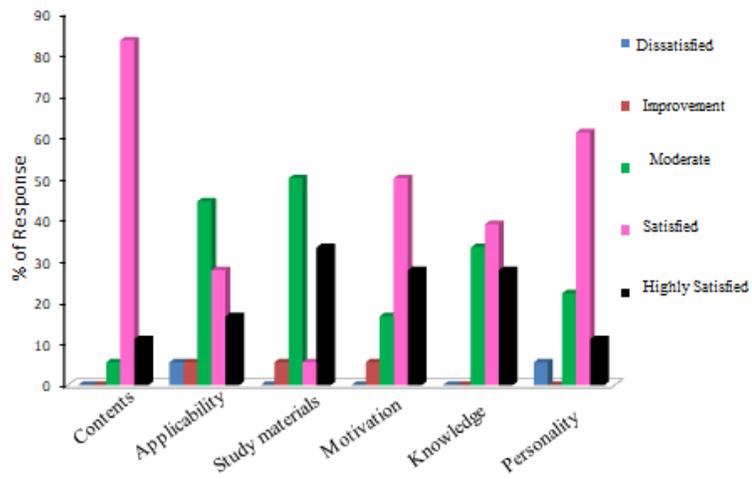

- In BA 60% students in III BA(HEE) Class are satisfied with contents and motivation they derived from course. Around 40% satisfied with course contribution towards their knowledge and personality development. 30%students are highly satisfied with course materials supplied.
- In BA 80% students in III BA Class are satisfied with course contents. Around 50% satisfied with course content for the motivation they derived, contribution towards their knowledge and personality development. 30%students are highly satisfied with course materials supplied

STUDENTS FEEDBACK ON CURRICULUM

ANALYSIS –Year 2018-19

Final year students asked to give feedback on syllabus content, applicability, learning resources provided, motivation they derived from course and its contribution towards their personality and knowledge base development.

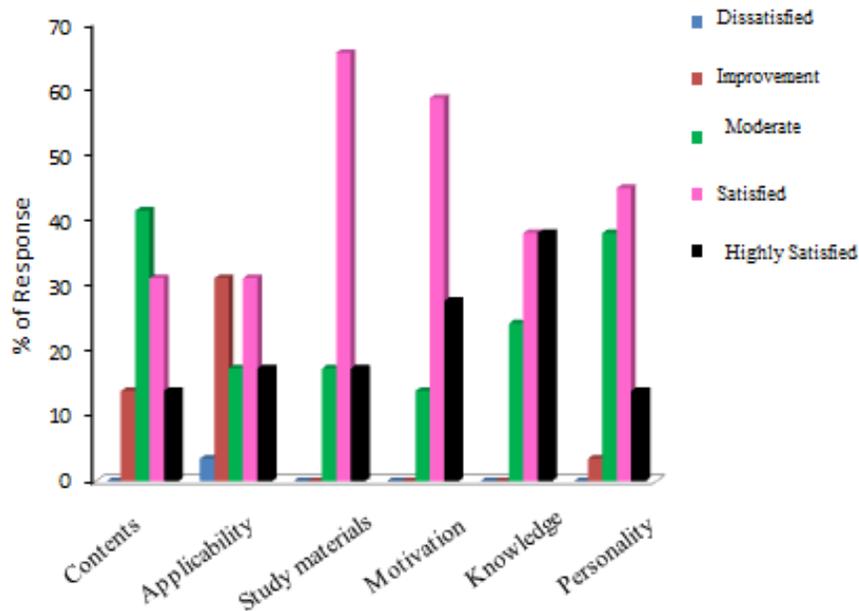

- Around \cong 50% students in III BSc(CBZ) Class are highly satisfied with course content and its applicability in general to real life, science and technology and also to career. They also satisfied with availability of study materials and motivation and overall personality development. Whereas \cong 40% students satisfied with knowledge base they could develop from it.
- Around 80% students in III BSc PCM combination Class moderately satisfied with course content and knowledge they developed from the course. Whereas \square 50% students satisfied with motivation they got. Around 50% students feel the course contents needed to be improved with respect to its applicability in general to real life, science and technology and also to career. They also not satisfied with availability of study materials and course contribution to their overall personality development.
- Around 60% students in III BSc(PME) Class satisfied with course content. Only 25% students are satisfied with its applicability in general to real life, science and technology and also to career. They are not satisfied with availability of study materials and motivation they derive. Whereas 40% students satisfied with knowledge base they could develop from it and its contribution to overall personality development.

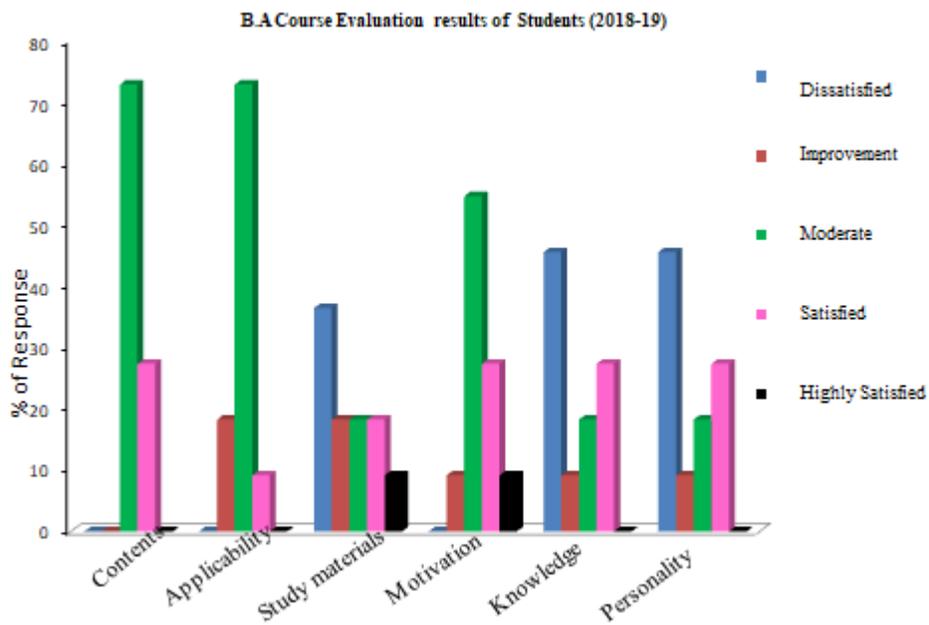

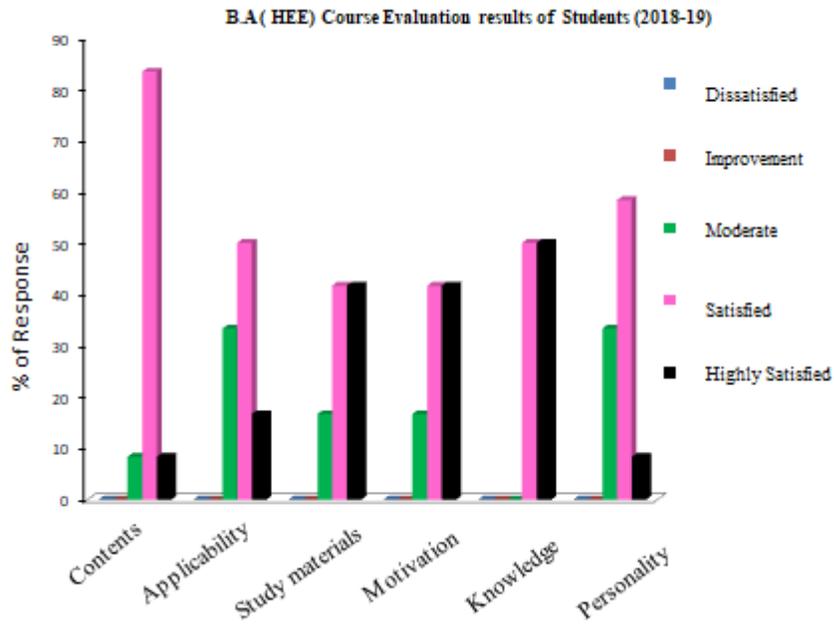

- In BCA around 70% students in III BCA Class are satisfied with study materials, motivation they derived from course and its contribution towards their personality development. Around 40% students are highly satisfied with course contribution towards their knowledge development.

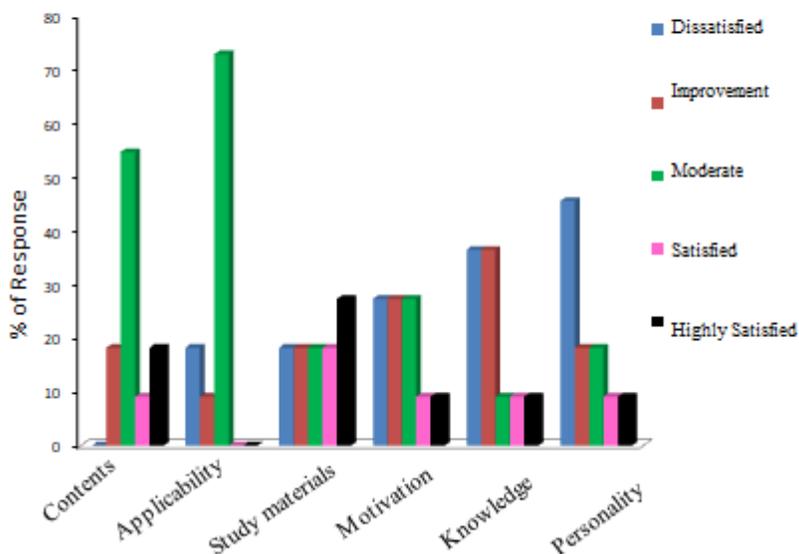

BCA Course Evaluation results of Students (2018-19)

- In BA 85% students in III BA(HEE) Class satisfied with contents of the course. Around 50% highly satisfied with course contribution towards their knowledge, motivation and study materials. 60%students are satisfied with contribution of the course in personality development .
- In BA 75% students in III BA Class not satisfied with contents of the course and its applicability. Around 50% not satisfied with course contribution towards their knowledge, motivation and study materials
- In BCom 75% students in III B.Com Class not satisfied with contents of the course and its applicability. Around 50% not satisfied with course contribution towards their knowledge, motivation and study materials. Only 30% students satisfied with course content , its motivation, and its contribution towards their knowledge and personality.

ALUMNI FEEDBACK ON CURRICULUM

ANALYSIS –Year 2017-20

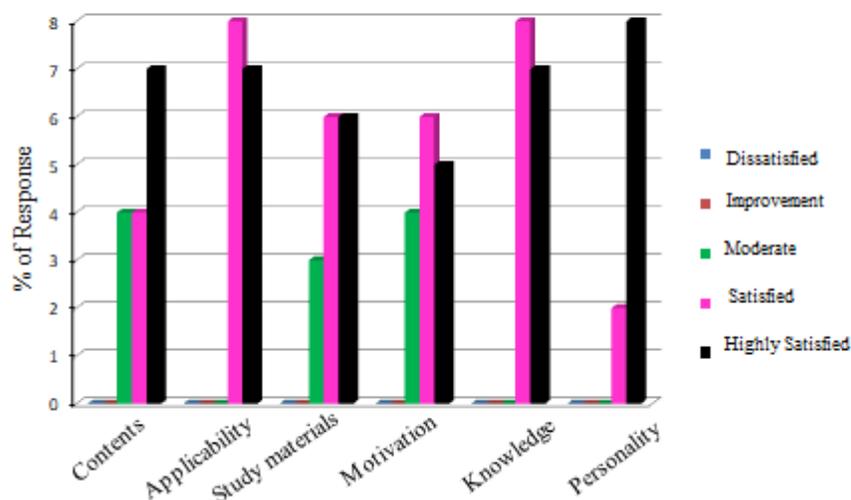

The college views its alumni as a valuable source of information. The feedback for the curriculum was taken by the alumni for academic session. Alumni are the output of higher education . Alumni course evaluations are recognized as an important part of the process of effective curriculum development. They provide insights into the undergraduate learning experience. Curriculum development should cater student needs and should lead to improvement of student learning. To meet the need and requirement of the society and in order to enhance the quality and standards of education, updating and restructuring of the curriculum must be process. The students, alumni and teachers are the most important stakeholders of Higher Education systems. Hence periodical feedback of these stakeholders will be taken to design/update a curriculum .Please fill this form carefully. Here you are evaluating the course you studied in your UG program.

The parameters include:

- 1 Contents of the Course Syllabus
- 2 Applicability/relevance to real life/in science and technology/for career.
- 3 Availability of textbooks/ study materials for the course
- 4 Whether the course content motivated you to aspire for higher studies/research?
- 5 Does the course content is sufficient to improve the knowledge base?
- 6 Whether the curriculum helped to improve your personality?

TEACHERS FEEDBACK ON CURRICULUM

ANALYSIS –Year 2017-20

Teachers' feedback is an important parameter for quality improvement of the curriculum and the quality of the student of institution. Teacher's feedback on curriculum is received for the syllabus by IQAC , analyzed and necessary improvement in content incorporated in the curriculum design and syllabus.

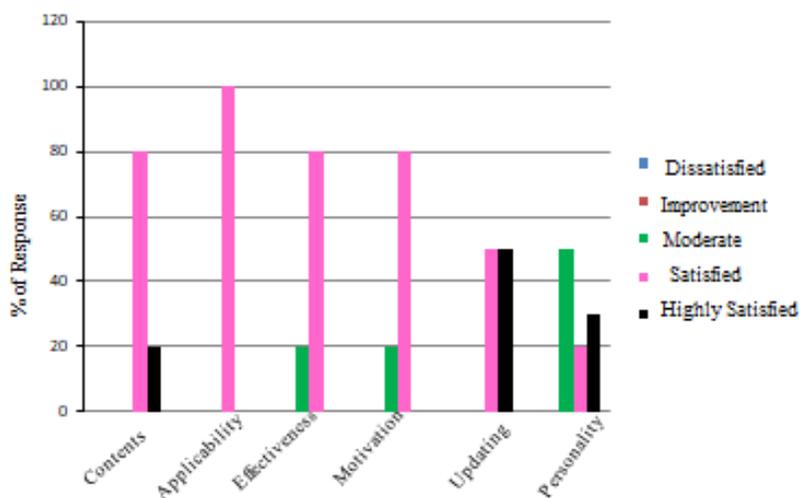

The following parameters are considered while obtaining feedback

- 1 Effectiveness of contents of the Syllabus
- 2 Applicability/relevance to real life/in science and technology/for career.
- 3 Effectiveness of contents of the Syllabus helpful students for competitive exams
- 4 Whether the course content motivates students to aspire for higher studies/research ?
- 5 Whether the course content is updated
- 6 Whether the curriculum helps in developing personality of the student

BSc curriculum analysis by teachers

BSc teachers around 80% are satisfied with course contents. All are highly satisfied with the applicability and satisfied with respect to student motivation. 50% teachers satisfied with the updating and around 30% are highly satisfied with respect to personality development of students.

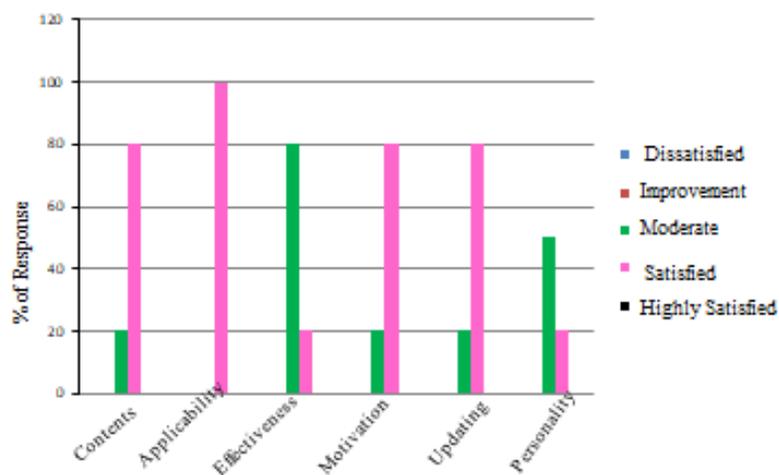

BSc teachers CourseEvaluation (2017-20)

curriculum analysis byBCom teachers

BA teachers Course Evaluation (2017-20)

CURRICULUM ANALYSIS BY TEACHERS-2020-21

1. Effectiveness of contents of the Syllabus

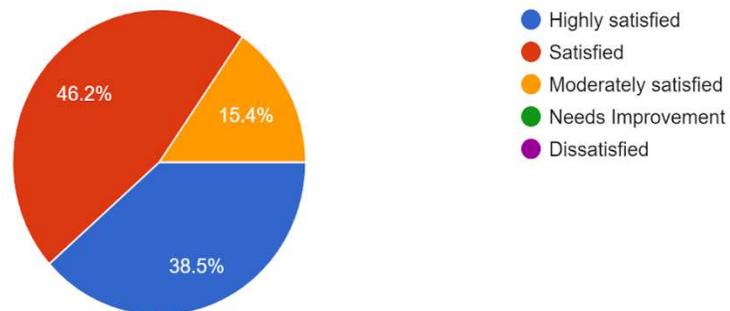

26 responses

Among our college teachers, 53.8% of teachers are highly satisfied with effectiveness of contents of syllabus and 34.6% of teachers are satisfied. Few are moderately satisfied Only few percentage of teachers that is around want to need improvement in contents of the syllabus but maximum teachers are satisfied with contents. According to this our syllabus content is good and satisfied to teachers

2. Applicability/relevance to real life/in science and technology/for career.

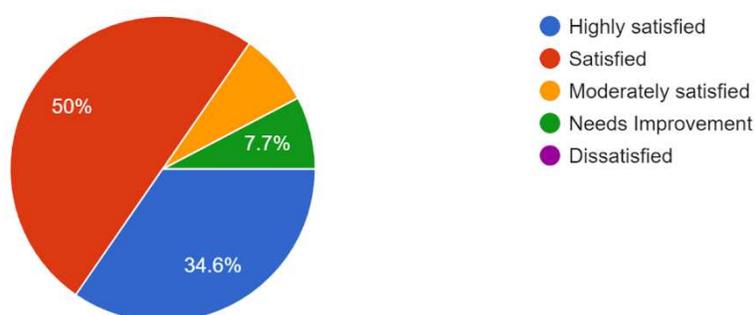

26 responses

Among our college teachers, 38.5 % of teachers are highly satisfied with applicability of syllabus and 46.2% of teachers are satisfied. Only 15.4 are moderately satisfied about applicability of contents in science and technology. According to this syllabus has most applications in science and technology

3. Effectiveness of contents of the Syllabus helpful students for competitive exams

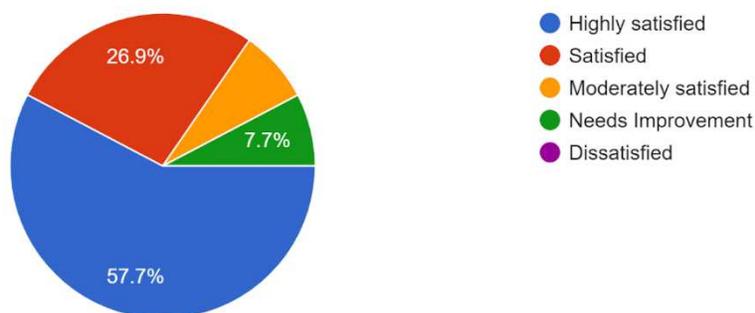

26 responses

Among our college teachers, 34.6 % of teachers are highly satisfied with useful of syllabus in competitive exams, 50% of teachers are satisfied. Only 7.7% are moderately satisfied and 7.7 % needs improvement in effectiveness of useful of content of syllabus in competitive exams. According to this chart, syllabus is more useful in competitive exams.

4. Whether the course content motivates students to aspire for higher studies/research ?

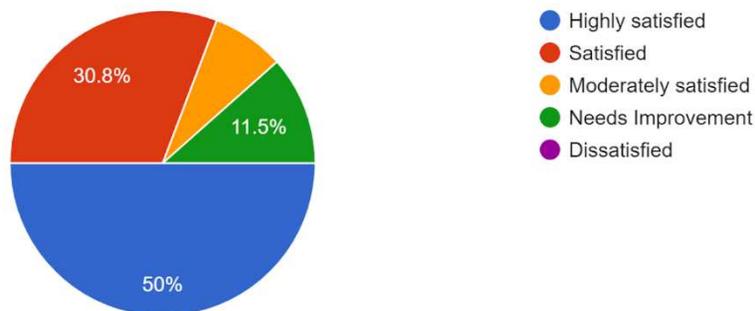

26 responses

Among our college teachers, 57.7 % of teachers are highly satisfied with helpful of syllabus in motivating the students to higher education, 26.9% of teachers are satisfied. Only 7.7% are moderately satisfied and 7.7 % need improvement in syllabus with respect to it. According to this chart, syllabus is more helpful in motivating the students to higher education.

5. Whether the course content is updated

26 responses

Among our college teachers, 50 % of teachers are highly satisfied with content of course, 30.8% of teachers are satisfied. 11.5% are moderately satisfied and 7.7 % need improvement in syllabus content. According to this chart course content is updated and more satisfied to teachers
