Report of the programme,

'Learn and Earn'

On 2/3/2021 a programme was held in D.V.S. Rangamandira under the title 'Learn and Earn' by department of sociology and IQAC

The programme was very much helpful to us to understand the motive and importance of life and the way of leading life. The first thing in the programme was a meditation or relaxation of about 20 minutes which was actually a relaxation to the body and mind.

Then it was about the sacrifices done by our parents for the betterment of our lives. And it is very important to respect them. And it was made us to understand by various examples. Then it was about having changes in life and importance of it in our life. which was explained to us by an activity.

After that they said about having trust in ourself is more important than others trusting in us. No matter how we look, our height is short or tall, our complexion, our weight all these things doesn't matter at all.

Next was about restlessless which we all have in our life. From the moment we get up from the bed to the night when we are again on the bed in order to sleep. Restlessness is not good and having patience is very much essential in order to succeed in life.

After that it was about positivity. We must be positive in every situation of our life. No matter what is the situation good @ bad. we must look always into the good side of the situation.

Next it was about our age which we call as teenage. which is most dangeous and we must have a controll on our mind as well as feelings. The person who will be stable in his teenage will be successful in his here after life.

Next they taught us about the people who always try to pull down us by their talks and behaviour. But we should not bother about these things it is quite common in this materialistic world and we must be strong enough to face them.

This was explained to us by an activity of balloons. How people are ready to pull us down from the stairs of success. and how it is important that not to do so. Which means that if we try to pull someone down there is always a person who will pull us down. And one important thing to notice in all this is that the person who will be doing backbiting and pulling people down will be always in a bellow. he can never come up.

All these information were very useful in building our carrier. So I would like to thank the department of sociology and the principle.

Field Visit

DATE :

PLACE VISITED :

CLASS & GROUP: III B.Sc. (BZC) as a part of III B.Sc. curriculum one day field trip was organized to XYZ city forest, XYZ by the Department of Botany DVS College of Arts and Science, Shimoga. The major objective was to familiarize the students with the flora & ecology of the region. Also to acquaint them with the importance of flora of forest area and the threads these ecosystems face due to natural and anthropogenic pressures. A group of 60 students were accompanied by our Botany department staff and attenders. As a part of their curriculum students collected plants for Herbarium preparations. The forest area was beautified with different species of plants Bambusa species, Bauhinia, Careya, Dillenia, Ficus, Mangifera, Terminalia. Haldinia, Tecoma stans, Lantana camara, Physalis minima, Ipomea species etc. Dominant families observed were poaceae, papilionaceae, Euphorbiaceae, Lamiaceae and Asteraceae.

Educational tour

Date: 24/02/2020

The department of mathematics, planned to visit IISc, Bangalore. Our journey to IISc, Bangalore. Confirmed sleeper class tickets at concessional rates were obtained for students in Train No (12090) Janshabdi express. The 4.30hr journey started with lot of excitement and enthusiasm. The chilled climate of Malnad was felt during the travel. Once we reached IISc the temperature is started to reach 30 °C. Many of us got excited to see IISc for the first time. The IISc is considered to be one of the top institute in India and abroad. An interactive session with the faculties and students of Department of Mathematics, IISc was Interaction with Prof. S. Thangavelu, Chairman, Department of Mathematics. Discussion was focused on the chance of collaboration for joint workshop, and training program, opportunity for the higher education to our students. Laboratory visit to know about the facilities at IISc were organized.
