115	Miss.	Bhavana AR	Student	Sahyadri Science College Shivamogga	Karnataka	India	bhavana092018@gmail.com	9449679012			Both presentation were very informative and interesting on their own way First was on the technology used by a scientist for the betterment of the society in developing the new food Verity and conserving biodiversity as well. The second was about the struggle and the effect of natural dessaster on nature and it's habitants which is a mirror image of present situation. Both were very intresting and I enjoyed and learned many things in this webinar. It must've been best if two more talks were included.
