REPORT ON THE PROGRAM

INTERNATIONAL SEMINAR ON APPLICATIONS OF MATHEMATICS IN EINSTEIN THEORY OF RELATIVITY

Organized by Department of Mathematics under Aegis of IQAC
On 13-07-2023.

I. Introduction:

In association with IQAC and support of the Management of Desheeya Vidyashala Samithi (R), Shivamogga from the department of Mathematics, DVS College of Arts, Science and Commerce, Shivamogga we have organized "International Seminar on Applications of Mathematics in Einstein Theory of Relativity" on 13/07/2023, Thursday at 10.30am in Singara Sabhanagana.

As we know that Mathematics is not only a subject, but also part of our life. The great Mathematician also called Human Computer Shakuntala Devi said: "Without mathematics there is nothing you can do, everything around you is numbers". Mathematics makes analytical and logical thinking among students via problem solving techniques, the more we do it, the more it increases human mental ability.

Mathematics can be defined as a field deals with numbers, symbols and alphabets used to represent quantities, relationships in both real world and imaginary problems. It also called as universal language, it included in all theories, laws and models. We need mathematics to study anything in nature from the smallest particle to the largest galaxy. Mathematics is the study of quantity, structure, space and change. It has been a part of human culture since ancient times and its importance continues to grow today. Mathematics has lot of applications in different areas such as Science, Engineering, Finance and many more. Einstein said that "Mathematics is the poetry of logical ideas". With his ideas and depth knowledge of mathematics he developed theory of relativity in 1905. Relativity theory describes how objects behave in space and time, study of behavior of planets, used to identify things like black hole, etc.

In this regard, department of mathematics aims to instill every student a positive attitude towards mathematics and aims to encourage students to become accurate, efficient and flexible

problem solvers. Has objective to provide knowledge and understanding of mathematics basics as well as research.

With respect to these things, we have organized International Seminar and invited Mathematics Professors, research scholars, B.Sc. and M.Sc. students of all Universities and colleges in India and abroad to give knowledge addition regarding applications of Mathematics in Einstein theory of relativity in hybrid mode of both Offline and Online.

II. Inaugural Program

In the inaugural program Swetha B. M. and Nanditha A., Asst Professors, Department of Mathematics started anchoring and started program with invocation song by 3rd B.Sc students Sanchitha Jois and Ananya Bhat. Then Dr. Chandru K., HOD, Department of Mathematics given introductory remark and welcome all the dignitaries, Chief Guest, students and all participants in both offline and online to the program. Then Chief patron of DVs Management Sri K. N. Rudrappa Kolale, President, DVS Management inaugurated the seminar and expressed inaugural address. Then Chief Guest Dr. Zohreh Nekouee from Sazvar Alley, Kosh Street, Tehran, Iran speaks few words about opportunities in education and research. Then Dr. A. Sathishkumar Shetty explained importance of education along with values and instructed audience to have a high aim to become international researcher, scientist. Sri B. Gopinath advised students to practice discipline and interact with resource persons to get more knowledge.

In the inaugural program we have distributed certificates for the 1st and 2nd place winners of mathematics quiz competition. Then the resource person felicitated by the management members. And Dr M Venkatesh, Principal, DVS College of Arts, Science and Commerce in his presidential address explained importance of mathematics in the research of various fields and quoted Einstein words Mathematics is the poetry of logical ideas and highlighted important innovations in relativity. Finally Mr. Mallikarjuna A. N., Assistant Professor, Department of Mathematics expressed vote of thanks to all the dignitaries and participants.

III. Seminar Sessions:

After the stage program, Resource person Dr. Zohreh Nekouee started the lecture on Applications of Mathematics in Einstein theory of relativity. In the beginning she given introduction to the development of fields such as calculus, geometry, differential geometry, Riemannian geometry, Finsler geometry, etc. Then explained fundamentals of theory of relativity, derivation of Einstein field equations, gravitational field, etc with the animations. Further, she covered some of the interesting results of the current research filed and motivated participants to involve in research.

In the second session Dr. H. M. Manjunath, Assistant Professor, Department of Mathematics, GFGC, Honnali explained application of Finsler geometry in theory of relativity. He explained interesting examples of theory of relativity, worm hole, black hole and current experiments on magnetic waves, Einstein field equations, etc.

Finally, resource persons discussed with participants and answered to student's questions.

IV. Valedictory Program:

In the valedictory program Sri Mallikarjuna A. N. welcomed the delegates. Principal Dr. M. Venkatesh distributed certificates to all participants. Dr. Chandru K., HOD of Mathematics expressed thanks to Management, Principal and resource persons.
