

About Shivamogga

Shivamogga (formerly Shimoga) is a lush green city in Karnataka, India, known as the "Gateway to Malnad." It is renowned for its stunning natural beauty, featuring dense forests, rivers such as the Tunga and Bhadra, and magnificent waterfalls like the iconic Jog Falls. The region is also rich in history, with sites like Keladi, and is well known for its agricultural produce, including coffee and areca nuts. With these natural and cultural assets, Shivamogga is steadily emerging as an important eco-tourism hub.

About College

DVS College of Arts, Science & Commerce, established in 1966, is a reputed First Grade College affiliated with Kuvempu University (formerly affiliated with the University of Mysore). The institution began with limited academic offerings and has steadily evolved to meet the changing educational needs of society. Today, it offers a wide range of undergraduate programs in B.A., B.Sc., B.C.A., and B.Com, with diverse subject combinations. The college is known for its disciplined academic environment and consistent achievements in academics, sports, and extracurricular activities. With strong infrastructure and rich learning resources, DVS College has earned NAAC accreditation with an 'A' grade and has been recognized by the Government of Karnataka as the District Lead College for Total Quality Management (TQM), reflecting its commitment to excellence and quality education.

About Department

The Department of Physics is an academic unit dedicated to the study of matter, energy, and their interactions. It offers an undergraduate B.Sc. program in fundamental physics, covering core areas such as quantum mechanics, condensed matter physics, and photonics. The department emphasizes hands-on laboratory training, conceptual understanding, and exposure to research-oriented learning, often supported by national and international academic collaborations. With a strong focus on developing scientific temper and intellectual curiosity, the department prepares students for diverse career paths in academia, research, and related scientific fields.

About the Conference

These conferences aim to foster collaboration, critical thinking, and holistic solutions by bringing together experts from different disciplines to address real-world problems, moving beyond single-discipline approaches.

Theme of the Conference

- Thermometric, Magnetism, Quantum materials
- Structural materials, Biomedical materials
- Materials for energy applications
- Materials synthesis and processing
- Aquatic Biology and Fisheries Science
- Material properties and characterization
- Environmental science and sustainable development
- Microbial Interactions and Plant-Animal Health
- Nanotechnology and Biotechnology in Life Science Research
- All applied physical and life science related themes

Call for Papers

- Authors are encouraged to submit full-length, original, unpublished paper free of plagiarism.
- The entire text should be produced in Microsoft Word format using Times New Roman in a 12-point typeface.
- A single author may submit more than one paper, but each one must be registered and presented either offline or online at the conference.
- The manuscript has no page limit.
- Accepted papers will be published as a special issue in Scopus-indexed and UGC Care List journal.
